

Providing loss prevention solutions to the world's leading retailers for 25 years

The Guardian

Hard- and Soft-Goods LP Solution for Securing High-End Clothing and Accessories

Innovative and adaptable, The Guardian is the ideal solution for hard- and soft-goods displays. This compact model fits a wide range of retail applications, including end-cap displays, stand-alone product islands or countertops. The Guardian combines versatility and strength to protect cell phones, apparel, accessories and more.

This multi-purpose alarm can also be used as a gate alarm for checkouts or aisles. Its compatibility with magnetic contacts enables the alarm to be used in showcases, POP displays, trade show booths, stock rooms and secured doorways.

Advantages

- Gently tethers product without damage
- Secures merchandise, promotes customer interaction
- Versatile functionality for hard- or soft-goods
- Allows for enhanced customer experience
- Multiple alarm settings indicate exact location of breach
- Neat appearance, cost-effective and easy to install
